The Five Bag EZE Drop bulk bag lifting adapter is rated for 44,000 pounds. This is the equivalent of ten (10), 4400 pound bags.

In order to preserve this rating the lift must be examined once a year by a qualified technician. If any deformation, crack, or corrosion (rust) is present, do not use until the lift has been inspected.

NEVER WELD ANYTHING TO THIS DEVICE.

Sincerely,

Larry Markos, P.E.
